Re: School Closure Update

Dear Families,

Today we were notified by the Governor's Office that all schools in New Jersey will remain closed until at least Friday, May 15th. Governor Murphy went on to say, "We need to be guided by where the facts on the ground, science, and public health take us. That means it will not be safe to reopen our schools for at least another four weeks."

We will keep everyone updated as we receive additional information.

We want you to know, that as a community of learners, we are dedicated to continuous improvement. We will keep refining our practices and approach to virtual learning so that we can best support all students' needs and ensure that each one is developing socially, emotionally, and academically. Our educators will keep communicating with you regularly. If something should arise, we ask that you notify us right away so we can support you and your child(ren). Together we will continue to work collaboratively to provide your child(ren) and family with rich learning opportunities. The infused education for sustainability, combined with our unique constructivist approach, allows for a genuine Unity experience even in this distance learning format.

We do want to take time to thank you for your ongoing commitment. We would also like to acknowledge our amazing educators. Together, your dedication during these unprecedented times, continues to amaze us and help create an amazing learning environment for the students.
